Page 60, line 8, insert – provision (a) is suspended until the Secretary has made the determination, in consultation with the Secretary of Energy, that

- a) reduced supply from the United States will not result in increased global reliance on oil and natural gas developed by Iran; and
- b) reduced supply from the United State will not result in an increase in the global average lifecycle emissions of global oil and natural gas supply, thus increased climate change risk because of increased global emissions.
